

Guidelines: Possibilities Summit Finale 2025 – 2026

Assessment Question

Identify a real-world problem within **any one** of the following four themes:

- Sustainability & Environment
- Health & Well-Being
- Technology for Social Good
- Financial Inclusion & Economic Empowerment

Develop a structured, innovative and detailed solution to address the problem you have identified. Your solution may include (but not limited to) a product, service, business idea, process improvement, or a technology-enabled intervention.

Ensure that your solution demonstrates clear impact, feasibility, and relevance in the Indian context.

Solution Guidelines

- Students are encouraged to identify a problem that is relevant, clearly defined, and supported by data points, observations, research insights or stakeholder interviews.
- Solutions can range from technology-based interventions (e.g., platforms, applications, devices) to non-tech models such as awareness campaigns, process improvements, community-driven initiatives, or entrepreneurial ideas.
- Students are encouraged to be innovative and thoughtful in their approach. The solution should demonstrate a clear understanding of the problem and outline how the proposal creates meaningful impact.
- Students may leverage AI for research purposes. However, all submissions must be original and any form of plagiarism will lead to disqualification.

Submission Guidelines

- The format of your submission is PPT with maximum of 3 slides.
- Ensure that you convert your PPT into a PDF prior to submitting.
- The naming convention for your submission should be <Collegename_Your Firstname_Your lastname>
